- A.S.A.P help, completion of functionality, support of projects & much more...

EDUCATION:

I have several workshops and training projects on frontend technologies:
ES6+, express.js, react.js, redux, MongoDB, Postgres, Webpack, Gulp & ets.
more you see https://github.com/ksawl/LearnProjects

ADDITIONAL INFORMATION:

I am interested in improving my skills as a front-end developer, learning new technologies, strengthening the basic foundations of programming and application architecture.
I want to develop my skills while working as a team on an interesting project.
